

# 日落 玉壶

## The Yuhu in the Sunshine

在 天门山国家森林公园内，有一座玉壶峰。它是天门山十六峰之一，因山体形似盛酒的玉壶而得名。玉壶峰是 天门山的最佳观景点之一，也是备受关注的 世界翼装飞行锦标赛的起跳点。其峰东、西、南面都是绝壁，异常惊险。站在山顶放眼远眺，北边有朝天山，西面是 天门山的巍峨绝壁，东南方有四十八座马头山。

在一个雨后天晴的清晨，天门山云海翻腾。太阳从地平线升起的瞬间，从天空栈道的角度拍摄，一轮红日刚好落在 玉壶 的壶口，趣味横生，美不胜收！

There is a Yuhu Peak in the Tianmen Mountain National Forest Park. It is one of the sixteen peaks of Tianmen Mountain. It is named for its shape looking like a jade pot. The Yuhu Peak is one of the best scenic outlooks of the Tianmen Mountain, as well as the takeoff of the generally concerned world wingsuit flying tournament. The east, west and south sides of the peak are bluffs, very dangerous. Taking a distant look on the mountaintop, the Chaotian Mountain is in the north, the lofty bluff of the Tianmen Mountain is in the west, and there are 48 Matou Mountains in the southeast.

In an early morning after rain, the sea of clouds writhes on the Tianmen Mountain. At the moment when the sun rises from the horizon, shooting from the angle of the sky trestle, a red sun is exactly falling on the mouth of the Jade Pot, so interesting, so beautiful.

It is said that watching the sea of clouds alone is lonesome. For recreation, I decide to go to Xijie with my favorite bicycle to see the sea of clouds together.
