On November 1, groups of Korean tourists happily went sight-seeing and took photos at the Baofeng Waterfall in the Baofeng Lake scenic area of Zhangjiajie. Since the implementation of the winter and spring flight seasons, the international aviation market of Zhangjiajie has continued to exert its strength, and has continuously operated international routes, such as Seoul, Daegu, Muan, and Cheongju of Korea, helping Korean tourists travel to the "holy mountain" Zhangjiajie, and injecting a strong "Korean wind" into the Zhangjiajie winter tourism market.
